### **This card may be used as either a loyalty card, or indeed a gift card.**

- This is a great idea for a gift. It's always hard to find that perfect gift for someone... This will confirm that the lucky person receiving the Gift Card will have a good time on that special occasion, or any other night they wish. With this gift card, you will also be a loyal member of Tavern29, therefore may use this card to accumulate points, and receive some great rewards!!!
- There is no reason why you wouldn't want to join in on being a member of Tavern29's loyalty program. With your first incentive being one of either a free draft beer from our wide selection of unique craft beer, or a glass of wine of your choice, to giving yourself an opportunity to receive exclusive rewards such as a four course whiskey pairing dinner for six guests, you'd be a fool not to join!!!

## **How to accumulate points?**

- When you receive your check from the bartender or server, let them know that you are a loyal member of Tavern29. They will swipe your Tavern29 loyalty/gift card, and the points will transfer directly to your personal Tavern29 account.
- Once you reach 250 points, you will receive a growler of a craft beer of your choice, and you will then carry on your quest to the next reward!!!
